1. Background

Since EHAB's initial bond issue in January 2022, global capital markets have suffered from geopolitical uncertainty, inflation and higher interest rates. Due to macroeconomic developments and evolving capital market conditions, EHAB communicated an intention to reduce its debt level in the near-to-mid-term and remains committed to unlocking value within its portfolio to facilitate the repayment of the Bonds. Having undertaken structured sales processes in 2023 and 2024 to divest its key assets, EHAB has implemented several strategic measures to enhance the conditions for successful exits, including deleveraging and executing bond buybacks within its portfolio companies. At group level, EHAB has also significantly reduced its overhead since the end of 2024.

In a written procedure concluded on 3 January 2025, Bondholders voted in favour of extending the tenor of the Bonds to allow time for the divestment of Lyvia Group AB (publ), as announced via a press release on 5 November 2024, ahead of the Final Maturity Date. However, on 27 January 2025, EHAB announced uncertainty regarding the completion of the divestment under the terms outlined in the letter of intent. As a result, EHAB initiated renewed discussions with Bondholders and began exploring alternative transactions. Following these discussions, EHAB has determined that additional time is required to maximize portfolio value under favourable conditions and ensure full repayment of the Bonds. To facilitate this, the Issuer is requesting the Bondholders' consent for a mandatory exchange of the Bonds. Under this proposal, all outstanding Bonds would be mandatorily redeemed and exchanged for new senior secured bonds with a three-year tenor (the "**Mandatory Exchange**" and the "**New Bonds**"). The Bonds are proposed to be redeemed in the Mandatory Exchange at a price per Bond equal to 103.25 percent of the nominal amount, including accrued but unpaid interest. The New Bonds are proposed to be issued with an issue discount of 7.50 percent.

As part of the Mandatory Exchange, the Issuer will transfer the shares in its key portfolio companies (the "**Pledged Investment Subsidiaries**") to a newly established holding company ("**MidCo**"). The shares in MidCo, along with the Pledged Investment Subsidiaries, will then be pledged under the New Bonds, creating a single point of enforcement for holders of the New Bonds.

In addition to securing the Issuer's obligations and liabilities under the New Bonds with a first-ranking pledge over all shares in MidCo and all shares held by MidCo in the Pledged Investment Subsidiaries, the New Bonds introduce the following key terms: (i) the New Bonds shall carry fixed deferred interest at a rate of 11 percent *per annum*, (ii) the applicable call price will increase gradually over the tenor to incentivise an early redemption, (iii) the net proceeds from any sale of shares in, or equity listing of, Pledged Investment Subsidiaries shall be used to repay the New Bonds provided that the cash and liquid securities in EHAB and MidCo do not fall below certain thresholds, and (iv) new maintenance covenants will be introduced (the "**New Terms and Conditions**").

The New Terms and Conditions will also provide that holders of the New Bonds shall have the right to appoint a bondholders' representative (the "**Bondholders' Representative**") through a written procedure or a bondholders' meeting. The Bondholders' Representative shall be authorised to make certain approvals and resolutions pursuant to the New Terms and Conditions. Additionally, the Issuer may, from time to time, contact holders of the New

Bonds to form an Ad-Hoc Committee, which shall be authorised to approve, *inter alia*, an Equity Listing Event or a Permitted Disposal (each as defined in the New Terms and Conditions), instruct the agent to release transaction security, and make any other approvals or resolutions assigned to an Ad-Hoc Committee under the New Terms and Conditions. The Ad-Hoc Committee shall represent no less than twenty-five percent of the New Bonds as of the date of the approval. It is acknowledged that the main purpose of the Ad-Hoc Committee is to provide final approvals for strictly legal and practical purposes which are necessary to effectuate the commercial decisions included in and approved through this Written Procedure (if adopted).

In addition, the holders of the New Bonds will have the right from time to time to nominate one member to the board of directors of the Issuer (including any re-election and/or replacement of such director from time to time) by way of a written procedure or bondholders' meeting. Alternatively, the bondholders may, if they so choose at a written procedure or bondholders' meeting, nominate up to two board observers instead of appointing a director (the "**Bondholder Director**" or the "**Bondholder Observers**").

2. The Request

The Bondholders are hereby requested to approve the measures and actions for the execution of the Mandatory Exchange by way of consenting to the proposals set out in Section 3 (*The Mandatory Exchange*) (the "**Request**").

The Agent has been informed that Bondholders representing an aggregate Nominal Amount of approximately 45 percent of the Adjusted Nominal Amount for the Bonds have committed to vote in favour of the Request.

3. The Mandatory Exchange

The Mandatory Exchange will be implemented mainly as described in the relevant sections below. The exact and detailed structure for how the Mandatory Exchange will be effectuated is however subject to further analysis and review. Therefore, certain details of the Mandatory Exchange may be carried out through other means than as described in this Notice, provided in the opinion of the Agent (without assuming any liability), the structure is consistent with the principles set out in this Notice.

3.1 Exchange of Bonds to New Bonds

The Issuer proposes that the Bonds are mandatorily redeemed and settled with New Bonds. The Bonds will be redeemed at a price per Bond equal to 103.25 percent of the nominal amount, including accrued but unpaid interest. The New Bonds will be issued with an issue discount of 7.50 percent. Any Bonds held by a Bondholder will be cancelled on or around 28 April 2025, and each Bondholder will receive New Bonds in exchange. The target record date for being eligible to receive New Bonds will be on or around 25 April 2025.

If the Mandatory Exchange were to occur on 28 April 2025 (not taking into account any future prepayments or cancellations of Bonds), the total nominal amount would be SEK 1,758,040,541, each with a nominal amount of SEK 1,395,270.¹

Further, the Issuer proposes that the Issuer and the Agent shall be entitled to take any actions necessary in relation to the CSD and Nasdaq for the purpose of cancellation and de-listing of the Bonds as well as the issuance, allocation and admission to trading of the New Bonds.

The New Bonds will be issued in accordance with the terms set out under Section 3.2 (*Terms and Conditions of the New Bonds*) below.

3.2 Terms and Conditions of the New Bonds

The Issuer proposes that the New Bonds are issued under the New Terms and Conditions, a copy of which are set forth in full in Schedule 3 (*The New Terms and Conditions*) of this Notice, (where blue and underlined text indicates additions to the Terms and Conditions (e.g., additions), whereas red and crossed out text indicates deletions from the Terms and Conditions (e.g., ~~deletions~~)).

The Issuer may also contact Bondholders from time to time in order to form an Ad-Hoc Committee which, if the criteria are met, shall be authorised to approve *inter alia* an Equity Listing Event or a Permitted Disposal, to instruct the Agent to release Transaction Security and make any other approvals or resolutions which an Ad-Hoc Committee shall make pursuant to the Terms and Conditions.

Any approval or instruction regarding a Permitted Disposal/Equity Listing Event and related Transaction Security release shall be at the relevant Ad-Hoc Committee’s sole discretion but not unreasonably withheld.

Should any approval or resolution be made by the Bondholders’ Representative and an Ad-Hoc Committee relating to the same action/request which are inconsistent or in conflict with each other, the approval or resolution made by the Ad-Hoc Committee shall prevail.

Bondholders may also nominate one Bondholder Director or, alternatively, one or two Bondholder Observers through a Written Procedure or Bondholders’ Meeting. A Bondholder Observer must sign a customary NDA before appointment. Only one director or up to two observers may be appointed at any time. The Bondholder Director/Bondholder Observer shall receive remuneration in line with market standards (however, should two Bondholder Observers be appointed, such remuneration shall be shared equally between the Bondholder Observers).

Necessary amendments to implement the New Terms and Conditions, and consequential amendments, to the terms explicitly referred to herein will be made, in good faith, to the New Terms and Conditions to the extent required.

3.3 Proposed waiver of the Terms and Conditions

The Issuer proposes that the Bondholders consent to waive any breach of the Terms and Conditions or any Event of Default that occur as a consequence of carrying out the measures set out in this Notice (including, for the avoidance of doubt, the Mandatory Exchange, the entering into of the New Terms and Conditions, the transfer of material assets to MidCo or any other transactions carried out and/or resolutions made by the Issuer or any of its subsidiaries, to the extent such transactions and/or resolutions are necessary to carry out the Mandatory Exchange).

Further, any voluntary partial redemption pursuant to clause 10.5 of the Terms and Conditions for the Bonds shall only require that the Issuer publish a press release at least four Business Days prior to the partial redemption date. Any such press release shall include information on the relevant partial redemption date and the record date. Any such partial redemption made on or prior to the Final Maturity Date of the Bonds shall reduce the nominal amount of the New Bonds in the Mandatory Exchange *pro rata* to reflect such prepayment.

The Bondholders are hereby requested to approve that Thomas Naess (representing Nordstjernan Kredit KB) is appointed as the Bondholders' Representative under the New Terms and Conditions (once becoming effective).

It is acknowledged that the Bondholders' Representative, when acting in accordance with this Section 3.4 and this Notice, shall be fully discharged from any liability, except in cases of gross negligence or wilful misconduct. Furthermore, the Bondholders' Representative shall not be held responsible for any indirect or consequential loss under any circumstances.

3.5 Appointment of the Bondholder Observers

3.6 Authorisation to the Agent

The Bondholders are hereby requested to approve that the Agent is irrevocably and unconditionally authorised on behalf of the Bondholders:

- (a) to take any actions and/or decisions that are deemed necessary and relevant to complete the Mandatory Exchange, as the case may be (in the sole discretion of the Agent) including but not limited to entering into all agreements and/or documents related to the Mandatory Exchange on behalf of the Bondholders; and

- (b) approve any amendments (also other than as set out in this Notice) to the New Terms and Conditions and take any further actions as are deemed necessary or desirable in relation to the Request in the opinion of the Agent (without assuming any liability), provided that such actions are consistent with the principles as described in this Notice.

The Issuer, by issuing this Notice, and the Bondholders, by voting for the Request, acknowledge and agree that (i) the Agent, when acting in accordance with the authorisation instructions set out in this Section 3.6 or otherwise set out in this Notice, is fully discharged from any liability whatsoever and (ii) the Agent shall never be responsible for any loss (whether direct or indirect) of any member of the Group or any Bondholder.

Please note that in accordance with the Terms and Conditions, if in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions, or taking any action at its own initiative, will not be covered, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.

4. Effective date

The Request shall be deemed approved immediately after the expiry of the voting period and satisfaction of the requisite quorum participation and majority vote as set forth in Sections 6.5 (*Quorum*) and 6.6 (*Majority*) or if earlier, when a requisite majority of consents of the Adjusted Nominal Amount have been received by the Agent (the "**Effective Date**").

The approval by the Bondholders of the Request will be rescinded if the Agent has not confirmed to the issuing agent under the New Bonds that it is satisfied that the conditions in clause 4.1 of the New Terms and Conditions have been fulfilled (or amended or waived in accordance with the New Terms and Conditions) no later than 30 April 2025.

5. Risk factors and tax

The holding of the Bonds, including a potential holding of the New Bonds, entails certain risks and each Bondholder should carefully review the non-exhaustive list of certain risk factors attached hereto as Schedule 4 before voting in this Written Procedure. The Issuer does not represent that the risks are exhaustive.

The Issuer shall not be responsible for any cost coverage and gross-up undertaking towards any party with respect to the Mandatory Exchange or any other transaction contemplated by this Notice, any proceedings or disputes with the Swedish Tax Authority due to the Mandatory Exchange or any adverse tax effects for any party. Each Bondholders must make its own determination as to the tax consequences of the transactions contemplated in this Notice and the Mandatory Exchange and each Bondholder is strongly encouraged to consult a qualified tax adviser for information with respect to the tax consequences that may arise in each individual case, including but not limited to the applicability and effect of foreign income tax rules, provisions contained in double taxation treaties and other rules, which may be applicable. Neither the Issuer nor its affiliates, agents, advisors or representatives assumes

any responsibility for any tax implications or consequences of the transactions contemplated by the Mandatory Exchange.

6. Written Procedure

The following instructions need to be adhered to in the Written Procedure.

6.1 Final date to participate in the Written Procedure

The Agent must have received the votes by mail, courier or email to the address indicated below no later than 15:00 CET, on 24 March 2025. Votes received thereafter may be disregarded.

6.2 Decision procedure

The Agent will determine if received replies are eligible to participate in the Written Procedure as valid votes.

When a requisite majority of consents of the total Adjusted Nominal Amount have been received by the Agent, the Request shall be deemed to be adopted, even if the time period for replies in the Written Procedure has not yet expired.

Information about the decision taken in the Written Procedure will (a) be sent by notice to the Bondholders, and (b) be published on the websites of the Issuer and the Agent.

A matter decided in the Written Procedure will be binding for all Bondholders, irrespective of them responding in the Written Procedure.

6.3 Voting rights and authorisation

Anyone who wishes to participate in the Written Procedure must on the Record Date 5 March 2025) in the debt register:

- (a) be registered as a direct registered owner of a Securities Account; or
- (b) be registered as authorised nominee in a Securities Account, with respect to one or several Bonds.

6.4 Bonds registered with a nominee

If you are not registered as a direct registered owner, but your Bonds are held through a registered authorised nominee or another intermediary, you may have two different options to influence the voting for the Bonds:

- (a) you can ask the authorised nominee or other intermediary that holds the Bonds on your behalf to vote in its own name as instructed by you; or
- (b) you can obtain a Power of Attorney (*Schedule 2*) from the authorised nominee or other intermediary and send in your own Voting Form based on the authorisation. If you hold your Bonds through several intermediaries, you need to obtain authorisation directly from the intermediary that is registered in the debt register as Bondholder of the

Securities Account, or from each intermediary in the chain of holders, starting with the intermediary that is registered in the debt register as a Bondholder of the Securities Account as authorised nominee or direct registered owner.

Whether one or both of these options are available to you depends on the agreement between you and the authorised nominee or other intermediary that holds the Bonds on your behalf (and the agreement between the intermediaries, if there are more than one).

The Agent recommends that you contact the securities firm that holds the Bonds on your behalf for assistance, if you wish to participate in the Written Procedure and do not know how your Bonds are registered or need authorisation or other assistance to participate. Bonds owned by the Issuer, another Group Company or an Affiliate do not entitle to any voting rights.

6.5 Quorum

To approve the Request, Bondholders representing at least twenty (20.00) percent of the Adjusted Nominal Amount must reply to the Request in the Written Procedure in order to form a quorum.

If a quorum does not exist, the Agent shall initiate a second Written Procedure, provided that the Request has not been withdrawn by the Issuer. No quorum requirement will apply to such second Written Procedure.

6.6 Majority

At least 66 2/3 percent of the Adjusted Nominal Amount for which Bondholders reply in the Written Procedure must consent to the Request in order for it to pass.

6.7 Address for sending replies

RISK FACTORS

Schedule 4

Described below are risk factors deemed to be of importance for Esmailzadeh Holding AB (publ), reg. no. 559242-7388 (the "**Issuer**"), and its direct and indirect portfolio companies (together with the Issuer, the "**Group**" and each a "**Group Company**"), the Group's business and future development and risks relating to the Issuer's contemplated written procedure relating to the senior secured floating rate callable bond issue with ISIN SE0017133564 issued by the Issuer (the "**Bonds**"), pursuant to which all outstanding Bonds will be mandatorily redeemed and exchanged for new senior secured bonds with a three-year tenor (the "**New Bonds**") governed by new terms and conditions (the "**New Terms and Conditions**"). Unless defined otherwise in these risk factors, defined terms in these risk factors shall have the same meaning as in the New Terms and Conditions.

The risk factors presented below are categorised as "RISKS RELATING TO THE GROUP", "RISKS RELATING TO THE BONDS" or "RISKS RELATING TO THE WRITTEN PROCEDURE" on the basis of whether they pertain to the Group or to the New Bonds. The risk factors categorised as "RISKS RELATING TO THE GROUP", are categorised as risk factors pertaining to the Group. Each risk factor is disclosed by rating the relevant risk as low, medium or high in terms of the probability of the risk's occurrence as well as the expected magnitude of its adverse impact. The assessment of the materiality and probability for each risk factor has been made by the Issuer. The risk factors are organised in several categories and the most material risk factor in a category is presented first in each category. Subsequent risk factors in the same category are not purported to be ranked in order of materiality.

PLEASE NOTE THAT NO DUE DILIGENCE HAS BEEN CARRIED OUT IN CONNECTION WITH THE WRITTEN PROCEDURE PROCESS. THUS, THERE MAY BE RISKS RELATING TO THE GROUP, ITS BUSINESS AND THE NEW BONDS WHICH ARE CONSEQUENTLY NOT DISCLOSED IN THIS DOCUMENT.

RISKS RELATING TO THE GROUP

Risks related to the Issuer's business activities and investments

Risks related to the Issuer's investments and the lack of liquidity

High level risk

The Issuer is an investment company with an investment portfolio consisting of equity investments in approximately 10 companies. A clear majority of the Issuer's investments consist of non-quoted investments and, as an investment company under IFRS, the Issuer records financial assets to their fair value in its balance sheet. The Issuer values its non-quoted investments regularly based on the valuation method that the Issuer considers to be the most accurate, for example based on recent transactions or capital raisings in the Portfolio Companies (as defined below), and thus, the recorded value of non-quoted investments is subject to greater uncertainty compared to quoted investments.

The Issuer is further exposed to the risk of a decrease in the value of its investments, either as a result of write-downs due to revised valuations or macroeconomic factors. A decrease in the value of its investments may adversely affect the Issuer's portfolio value and balance sheet, and thereby have a material negative impact on the Issuer's financial

position, and ability to fulfil its obligations under the New Bonds. For example, a 10 per cent. decrease in the aggregated value of the Issuer's investment portfolio (excluding liquid assets) as per 30 September 2024, would entail a decrease of the fair value of approximately SEK 778 million which would adversely affect the Issuer's financial position. Finally, should the Issuer, due to e.g. liquidity shortage, need to divest any of its investments, including such being qualified as Liquid Securities (as defined in the New Terms and Conditions), at a specific time, there is a risk that the Issuer will not be able to sell the assets at its full value or that the market for such assets has a limited liquidity, resulting in such assets not being able to be sold at its full value or at all. For example, the Issuer's non-quoted investments are not publicly traded and are thus highly illiquid, which could result in difficulties to divest such on short notice or at all if the Issuer would be required to sell.

Macroeconomic factors

High level risk

The Issuer is an investment company mainly focusing on investing in and establishing investment platforms (each platform being a "**Portfolio Company**" and together the "**Portfolio Companies**" and their acquired companies being "**Acquired Companies**") which focuses on acquiring businesses within specific sectors. Acquired Companies mainly consist of well-established companies with a demonstrated history of earnings and stable cash-flows. The Portfolio Companies acquire companies within sectors such as the real estate services and construction sectors in respect of the Portfolio Company Novedo and the TMT sector in respect of the Portfolio Company Lyvia Group and lastly the industrial sectors in respect of the Portfolio Companies Rebellion and Eitrium.

The Issuer is dependent on the success of its Portfolio Companies and the Portfolio Companies are in turn dependent on the products produced and the services offered by the Acquired Companies being in demand by consumers and industrial purchasers. The market demand is largely affected by macroeconomic factors outside the relevant companies' control and specifically the macroeconomic conditions in Sweden where a majority of the Portfolio Companies (including the Acquired Companies) operate. Conditions in the global capital market and the economy in general, such as consumption, business investments, public investments, the volatility and strength of the capital market, interest rates, inflation or deflation, affect the Issuer's, Portfolio Companies' and the Acquired Companies' operations and performance.

The Portfolio Companies Novedo and Rebellion are for instance acquiring companies within the industrial and real estate services sectors, and these sectors have historically demonstrated sensitivity to deteriorating economic climate when less infrastructure projects and less building projects are initiated. Furthermore, pandemics and ongoing military conflicts may also affect the economy in general. If one or several of these factors would develop negatively, this could have a significant negative impact on the Portfolio Companies and their Acquired Companies' business, financial position and results and ultimately affect the Issuer's financial position and ability to repay the New Bonds.

Risks related to the Portfolio Companies' financial performance

Medium level risk

There is a risk that a Portfolio Company makes incorrect commercial assessments in connection with acquisition processes, which could lead to the Portfolio Company acquiring companies that underperform and/or do not live up to the expectations and do not lead to the positive effects that the Portfolio Company intended to achieve with such acquisition. There is also a risk that potential issues with an Acquired Company, such as required investments, outstanding commitments, future losses or other legal risks, are not

detected in the course of the due diligence review with regard to the Acquired Company or that there are other unidentified risks associated with the Acquired Company. If any of the above risks would materialise, it would have a material adverse effect on the relevant Portfolio Company's operations, financial position and profits, as well as ability to obtain financing for further growth, all of which would subsequently affect the Issuer's portfolio value and ability to successfully divest such Portfolio Company negatively.

Dependence on Portfolio Companies for cash flows and dilutive effects

Medium level risk

The Issuer holds few material assets other than holdings in Portfolio Companies. Accordingly, the Issuer is dependent upon receipt of sufficient cash flow from its Portfolio Companies and/or divestments of such Portfolio Companies to meet its own obligations, including the payment obligations under the New Bonds. In view of the Issuer being a majority owner in several of the Portfolio Companies, the Issuer is indirectly subject to the same risks that the Portfolio Companies are exposed to in their respective operations, in addition to issues relating to the ownership of such Portfolio Companies.

The Issuer may be further diluted, for example due to the fact that sellers of Acquired Companies may be offered reinvestments in each Portfolio Company in the form of equity earn-outs, that may materialise and be converted into common shares in the Portfolio Companies and have a dilutive effect.

For example, as per 30 September 2024, the Issuer's ownership in the three largest holdings in terms of value, Lyvia Group AB, Novedo Holding AB and Rebellion Capital AB, which together account for approximately 90 per cent. of the Issuer's total portfolio value, amounted to approximately 87, 68 and 40 per cent. of the shares in the respective company. There is a risk that the Issuer's shareholding in the Portfolio Companies will be further diluted in the future if the Acquired Companies perform well and the equity earn-outs materialise. Further, the Issuer's interests may conflict with the interests of other shareholders and lead to difficulties in the management of such Portfolio Companies, which in turn may have a material adverse effect on the Issuer's investment. The Issuer is thus dependent on value gains, sales proceeds, dividends or other forms of cash flow from its Portfolio Companies and a decrease of the value of, or cash flow or other income from, the Portfolio Companies may have a material adverse effect on the Issuer's operations and financial position.

Tax and classification risks

Medium level risk

The Issuer conducts its business, including intra-group transactions, in accordance with the Issuer's interpretation of current tax legislation in Sweden, tax authorities' guidelines and other requirements. Tax legislation is subject to frequent changes including introduction of new taxes and fees and such change could have a significant impact on the tax position of the Issuer and its Portfolio Companies (including Acquired Companies). The Issuer's interpretation of applicable rules or practice may be incorrect and changed in a way that has a material adverse effect on the Issuer's financial position.

Further, the Group is subject to different tax regulations through its Portfolio Companies, adding complexity from a tax perspective and entails a risk that the complexity results in errors in the Issuer's tax management. Further, the Swedish Tax Agency (Sw. *Skatteverket*) may not agree with the Issuer's perception and interpretation of laws, regulations and practices. The Issuer's current tax situation may therefore be subject to negative change. For instance, the Issuer believes its profits from divestments of non-quoted shares to be tax exempt due to the shares being qualified as business related shares (Sw. *näringsbetingade andelar*) under Swedish taxation law. However, should the Swedish Tax

Agency determine that the Issuer's profits from divestments of shares in its Portfolio Companies are not tax exempt, for example due to the Issuer being treated as a securities company (Sw. *värdepappersbolag*), it would have a material adverse effect on the Issuer's strategy, flexibility, its financial position, cash flow and results. Furthermore, any failure in compliance of applicable tax laws can lead to increased costs, payment of additional taxes and/or fees, which may have an adverse effect on the Issuer's and the Portfolio Companies (including Acquired Companies) business, financial position and results.

Additionally, the Issuer's classification as an investment company under IFRS 10 may be challenged if the Group carries out the contemplated reorganisation under which its shares in the Portfolio Companies shall be transferred to MidCo. Any such reclassification could have a material adverse effect on the book value of the Issuer's assets and its financial position.

Management risk and ability to recruit and retain personnel

Low level risk

The Issuer was formed in January 2020 and the organisation of the Issuer is of limited size. Therefore, the Issuer is dependent upon its senior management and other employees, in total approximately 10 full time employees, for the implementation of its strategy and the operation of its activities. The future success of the Issuer therefore, amongst other things, depends on the Issuer's ability to retain and motivate its key personnel. It also depends on the ability to recruit, retain and develop other qualified senior executives and key employees with the necessary skills and extensive industry experience to the Issuer. The Issuer is further dependent on its CEO Mikael Ericson as well as its founder and executive chairman Saeid Esmaeilzadeh, and if the Issuer fails to retain such persons or if they do not dedicate sufficient time to the operations of the Issuer, this would have a material negative impact on the Issuer's and its Portfolio Companies' business and future prospects.

As part of the Issuer's investment strategy, the Issuer has several partly owned Portfolio Companies, with each of them carrying out their respective business independently from each other. Therefore, the Issuer is dependent on its ability to retain the existing management of such Portfolio Companies (including the Acquired Companies) and its ability to attract new management in order for such Portfolio Company (including the Acquired Companies) to carry out their respective business plans. If the Issuer or a Portfolio Company is unable to recruit or retain senior executives or other key employees in respect of a Portfolio Company or the Acquired Companies, this could materially and adversely impact such Portfolio Company's or Acquired Company's business, financial condition and results, and thus the value of the Issuer's investments.

Risks related to the Acquired Companies' operations

Low level risk

All business operations in the Portfolio Companies, including the business operations of their Acquired Companies, are associated with a variety of risks which could lead to losses, including due to deficient procedures, failure to increase and improve the functionality and quality of existing products and services, failure to remain competitive or launch new products and services and to successfully optimise production and introduce cost reduction measures. There is also a risk that some Acquired Companies will be unable to adapt to a changing business landscape, including but not limited to digitalisation, the implementation of new technologies, supply and the maintaining of key suppliers and customer relationships. In addition, quality problems, production interruptions and delays in the delivery of its services or products, could lead to a loss of orders and customers for each Acquired Company. The Issuer has several Portfolio Companies which acquires

businesses within, among others, the following sectors: the TMT sector (technology, media and telecom), real estate services sector, industry and venture capital and biotechnology and each of these sectors are associated with specific inherent risks. For example, the real estate services sector is highly competitive and is also subject to macroeconomic risks as the construction segment is especially subject to the general economic condition (please also see the risk factors "Macroeconomic factors" and "Risks related to the Portfolio Companies' financial performance" above). The fact that the markets in which the Acquired Companies operate may be subject to increased levels of regulation or may encounter negative publicity can also have a material adverse effect on the Portfolio Companies and in turn adversely affect the Issuer's operations, financial condition and operating results.

Risks related to negative publicity and dependency on reputation

Low level risk

The Issuer is dependent on its and its Portfolio Companies' good reputation. The Issuer or its Portfolio Companies may in the future, directly or indirectly, be negatively exposed in public and social media. The Issuer may have a limited ability to anticipate or respond to such publications, in particular since all Portfolio Companies and/or Acquired Companies operate with a high degree of independence. Since the Issuer has several partly owned Portfolio Companies, and the other shareholders normally consist of founders and/or key employees within the business conducted by the entity in question, there is a risk that such shareholders may have a different view on how the respective Portfolio Companies should be operated, which could limit the Issuer's ability to anticipate, prevent and/or respond to negative publicity. Damage to their reputation could lead to loss of income or loss of growth potential, or reduce the Issuer's attractiveness to raise capital from external investors or have a negative effect when conducting new investments or establishing new Portfolio Companies. Other stakeholders could also lose confidence in the Issuer and its Portfolio Companies. For instance, should the Issuer or any of the members of its or its Portfolio Companies' senior management team take an action that conflicts with the Issuer's values, or should any of the Issuer's projects not meet the market's expectation, the Issuer's reputation could be at risk and it could further make buyers reluctant to acquire Portfolio Companies from the Issuer, owners of prospective target companies reluctant to sell their companies to the Portfolio Companies, or they may be inclined to sell their companies at a higher price, ultimately affecting the Issuer's financial position and growth prospects. Thus, reputation damage or negative publicity could have a material negative impact on the Issuer's and its Portfolio Companies' operations, earnings and financial position.

Risks related to the Issuer's financial situation

Refinancing and liquidity risk

High level risk

EHAB has shifted its strategic focus toward achieving a debt-free position in the near-to-mid-term. This shift has been reflected in revised financial targets and a series of initiatives aimed at unlocking value within its portfolio to facilitate the repayment of the New Bonds. Throughout 2023 and 2024, EHAB has undertaken structured sales processes to divest key assets to finance a repayment.

The Issuer has, to date, not been able to sell its shares and holdings at their respective book value at the time of disposal, and there is no assurance that it will be able to achieve this in the future. Moreover, deteriorating market conditions may limit the opportunities to sell holdings in Portfolio Companies, potentially resulting in realised values that are

lower than those reflected on the balance sheet at the time of disposal, or in some cases, no sale at all.

Moreover, there is a risk that Portfolio Companies will be required to refinance some or all of its outstanding debt or that the Issuer and/or Portfolio Companies will be required to seek additional financing in order to be able to continue the operations. The ability to successfully refinance any external financing arrangement or obtain additional financing or funding depends on a variety of factors, among other things, market conditions and the general availability of credit. Should the Issuer or a Portfolio Company be unable to refinance their debt obligations on favourable terms, or at all, or obtain additional capital when needed, it would have a negative effect on the Issuer's business, financial position and result of operation, in addition to the bondholders' recovery under the New Bonds.

As at the date hereof, the Issuer is and certain Portfolio Companies are, and may in the future, through its future financing arrangements, be required to fulfil certain financial covenants. There is a risk that the Issuer or Portfolio Companies in the future could breach such covenants and that they lack access to financing sources on acceptable terms, or at all, at the time of such breach. This could in turn cause lack of liquidity where needed in the Issuer's operations, as well as negatively affect the Issuer's portfolio value.

Furthermore, disruptions, uncertainty or volatility in the capital and credit markets may also limit the Issuer's and Portfolio Companies' access to capital required to operate. Such market conditions may limit the ability to repay, in a timely manner, maturing liabilities, to generate income and market-related revenue to meet liquidity needs and to access the capital necessary to grow the Issuer's business or to finance the Portfolio Companies businesses, as applicable. As such, the Issuer or Portfolio Company may be forced to postpone the raising of capital or bear an unattractive cost of capital, which could decrease the Issuer's portfolio value and significantly reduce its financial flexibility. If any of the described risks were to materialise it could have a material adverse effect on the Issuer's operations and financial position, which could subsequently affect the Issuer's ability to meet its obligations under the New Bonds, including the ability to carry out a redemption of the New Bonds.

Credit exposure and interest rate risk

High level risk

The Issuer and its Portfolio Companies may, in compliance with the limits set out in the New Terms and Conditions, incur further financial indebtedness to finance its business operations. As the current market trend is that liquidity is scarce and expensive, the Portfolio Companies needs to contemplate different financing arrangements. Borrowing money to make investments will increase the Group's exposure to the loss of capital and higher interest expenses.

If the Group cannot successfully mitigate its credit risk or if its counterparties cannot fulfil their obligations towards the Group, this could negatively affect the Group's liquidity and therefore increase the Group's need for additional financing. There is a risk that the Group's counterparties cannot fulfil its financial obligations vis-a-vis the Group, which could have a negative impact on the Group's earnings and financial position.

Interest rate risk refers to the risk of changes in the capital market that may affect the interest rate conditions and thus borrowing costs for the Group. Interest rate risk is expressed as the cost change for the interest-bearing liabilities, expressed in SEK. As per 30 September 2024, the Issuer's interest-bearing liabilities, excluding any tax effects or implications, was approximately SEK 1,613 million. If the interest rates on the Issuer's loans were to be increased by one percentage point, the Issuer's interest expenses, excluding any tax effects or implications, would increase by approximately SEK 16 million on an annual basis, albeit with a certain delay due to fixed interest periods.

The New Bonds will bear a fixed annual interest rate of 11.00 per cent, with interest payments made in arrears each year. However, all interest due on any interest payment date prior to the Final Maturity Date shall be deferred in full and paid only upon the redemption of the New Bonds, whether in whole or in part. When deferred interest is paid, it will include an additional amount reflecting interest accrued on the deferred sum at the applicable interest rate, as if it had been capitalised on each interest payment date. As a result, the Issuer's total interest-bearing debt will increase over time, thereby increasing the risk that the Issuer will be unable to refinance or repay its interest-bearing debt (see further under "*Refinancing and liquidity risk*" above).

RISKS RELATING TO THE NEW BONDS

Risks relating to the nature of the New Bonds

Risks relating to security arrangements

Medium level risk

As continuing security for the due and punctual fulfilment of the Issuer's obligations under the New Bonds, security will be provided over the shares in a newly established holding company ("**MidCo**") to which the shares in certain Portfolio Companies shall be transferred. MidCo may either be an existing, dormant entity owned by the Issuer's group or a newly acquired off-the-shelf company. MidCo shall also provide security over all its shares in such Portfolio Companies. Each security interest granted is subject to limitations that ensure compliance with applicable laws regarding financial assistance, corporate benefit, capital maintenance, or similar restrictions. As a result, the transaction security may not be fully enforceable, or may only be partially enforceable, which could impact the recovery of bondholders. Additionally, the proceeds from any enforcement of the security assets may not be adequate to cover all amounts owed under the New Bonds. For instance, there is a risk that the value of the security assets will only allow for a partial repayment, particularly if the assets are illiquid or hold less value to third parties than to the Group. There is also the possibility that the security assets cannot be sold in an enforcement proceeding, or, if a sale is possible, delays may occur in realizing their full value.

The shareholding in most of the Portfolio Companies is governed by shareholders' agreements, which stipulate that any transfer of shares is in certain cases contingent upon the new shareholder agreeing to adhere to the terms of the agreement. However, there is no certainty that a new shareholder, following the enforcement of the transaction security, would be able to accede to the shareholders' agreements as the majority shareholder. If the enforcing party cannot assume this role, it would lose access to certain advantageous exit provisions and rights of first refusal that are reserved for the majority shareholder. Additionally, some shareholders' agreements contain rights of first refusal that may be triggered during an enforcement of the transaction security. While these clauses would not prevent the enforcement itself, any share transfer that contravenes the agreements could expose the transferring entity to substantial claims, potentially having a materially adverse impact on the Group's financial position and the Issuer's ability to repay the New Bonds. Moreover, following the enforcement of the transaction security, the shareholders' agreements may complicate any future sale or disposal of shares in the Portfolio Companies.

Subject to certain limitations from time to time, the Issuer may incur additional financial indebtedness and provide additional security and guarantees for such indebtedness. Some Portfolio Companies have furthermore incurred indebtedness under senior secured bond issues and/or other debt facilities and in connection therewith granted security and guarantees including security over, inter alia, shares and intra-group loans. There are also

no restrictions for the Portfolio Companies to incur further debt from time to time under the New Terms and Conditions. As security has been granted in favour of third-party debt providers, and may be provided to additional debt providers, the Issuer will, in the event of bankruptcy, re-organisation or winding-up of any Portfolio Company, be subordinated in right of payment out of the assets being subject to security provided to such third-party debt providers. In addition, if any such third-party debt provider holding security provided by the Portfolio Company were to enforce such security due to a default by any company within the group of any Portfolio Company under the relevant finance documents, such enforcement could have a material adverse effect on the Issuer's assets, operations and financial position, and the Issuer's ability to repay the New Bonds in full.

Each investor should be aware that an investor in the New Bonds may lose all or part of their investment if the Issuer or the Group is declared bankrupt, carries out a reorganisation or is wound-up.

The Issuer is dependent on its Portfolio Companies

High level risk

A significant part of the Issuer's assets and cash position relate to the Issuer's Portfolio Companies. The Issuer is dependent on the value of its Portfolio Companies and the Issuer's cash position and ability to repay the New Bonds depends on divestments of and dividends from such.

Consequently, the Issuer is dependent upon the Portfolio Companies' availability of cash and their legal ability to make dividends or other cash distributions, which to a great extent is limited by their financing undertakings, and may further be limited by corporate restrictions and law. The Portfolio Companies are further legally distinct from the Issuer and have no obligation to make payments to the Issuer of any profits generated from their business. Should the Issuer not receive sufficient income, by way of divestments, dividends or value transfer from one or more Portfolio Company, it would have an adverse effect on the Issuer's business, financial position, earnings and result and ability to repay the New Bonds. Furthermore, the Group or its assets may not be protected from actions by the creditors of any Portfolio Company, whether under bankruptcy law, by contract or otherwise.

Credit risks relating to the New Bonds and ability to repay the debt under the New Bonds

Medium level risk

Investors in the New Bonds assume a credit risk towards the Issuer and indirectly the Group. An investor's prospects of receiving payments under the New Bonds is therefore dependent upon the Issuer's ability to meet its payment obligations, which in turn is largely dependent upon the performance of the Group's operations and its financial position. The credit risk and the Group's financial position is affected by several factors of which some have been mentioned in the above category "Risks relating to the Group". One such aspect of credit risk is that there is a risk that a deteriorating financial position of the Group will force the Group to refinance the New Bonds instead of redeeming them with cash generated by the Group, as described under Section "Refinancing risks" above. The ability to repay the New Bonds also relies on and the Issuer being able to exit its investments on favourable terms, if at all. The Group has expressed a vision of exiting its investments in the Portfolio Companies through e.g. IPOs. However, the conditions for a successful IPO are largely dependent on market factors that are outside the Group's control. As such, there is no guarantee that the Group will be able to execute these exits, whether through IPOs or other means, before the New Bonds mature.

If the Group's operating income or exit proceeds are not sufficient to cover its operations or indebtedness, the Group will be forced to take actions such as reducing or delaying its

business activities, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity capital. There is a risk that the Group may be unable to implement these remedies on favorable terms or at all. A weakened financial position could further limit the Group's ability to secure debt financing when the New Bonds reach maturity. The Issuer's ability to repay its debt under the New Bonds will also depend upon, among other things, the Group's future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors.

Should any of the above risks materialise, this would have a significant negative effect on the Group's operations, earnings, results and financial position. Investors should further note that the applicable call price of the New Bonds will increase gradually over the term of the New Bonds to incentivise redemption. Consequently, if the Issuer fails to swiftly divest its Portfolio Companies, redeeming the New Bonds in full will become increasingly costly and challenging. Furthermore, increased credit risk may cause the market to charge the New Bonds a higher risk premium, which will affect the New Bonds' market value negatively. If the Issuer is unable to repay the New Bonds, bondholders may face significant challenges or even be unable to recover the amounts owed to them.

Interest rate risks in relation to the New Bonds

Medium level risk

Following the Written Procedure, interest under the New Bonds will be paid in kind (PIK) annually at a rate of 11.00 per cent *per annum* meaning that interest will be capitalised instead of paid in cash to the bondholders. This will reduce bondholders' cash flow from an investment in the New Bonds compared to if interest were to be paid in cash. Interest paid in kind will be repaid upon redemption of the New Bonds and given that PIK interest can grow quickly due to compounding this could increase the risk for payment default by the Issuer in connection with a redemption of the New Bonds.

Risks related to early redemption

Low level risk

Under the New Terms and Conditions, the Issuer has reserved the possibility to redeem outstanding New Bonds before the final maturity date. If such redemption is made within one year from the first issue date, the bondholders have the right to receive a redemption amount which amounts to 100.00 per cent. of the nominal amount in accordance with the New Terms and Conditions, after which the applicable call price will increase gradually over the term of the New Bonds to incentivise prompt redemption. However, there is a risk that the market value of the New Bonds is higher than the redemption amount (including any premium) and that it may not be possible for bondholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the New Bonds and may only be able to do so at a significantly lower rate.

Voting majority owner

Low level risk

Saeid Esmaeilzadeh owns and controls more than 50 per cent. of the shares, while Mouna Esmaeilzadeh owns and controls the remaining part of the shares, in the Issuer's major shareholder, Dr. Saeid AB, reg. no. 559132-0337 ("**Dr. Saeid**"). Together, they exert indirect control over approximately 55 per cent. of the shares in the Issuer. According to the New Terms and Conditions, if a change of Control of Control Event occurs (as defined in the New Terms and Conditions), the bondholders have a right of prepayment of the New Bonds (put option), please see below section "Put Option" regarding potential consequences of a change of control event occurring and the risk that the Issuer does not

have enough liquidity to repurchase the New Bonds if the bondholders use their right of prepayment. The interests of Saeid Esmaeilzadeh, Mouna Esmaeilzadeh or Dr. Saeid or, following any potential change of control in the Issuer, any new majority shareholder in the Group may conflict with those of the bondholders, particularly if the Issuer encounters difficulties or is unable to pay its debts as they fall due. A majority shareholder has legal power to control a large number of the matters to be decided by vote at a shareholder's meeting. For example, a majority shareholder will have the ability to elect the board of directors. Furthermore, a majority shareholder may also have an interest in transactions that, in their judgment, could enhance the value of their equity investments although such transactions might involve risks to the bondholders. There is nothing that prevents a shareholder or any of its affiliates from acquiring businesses that directly compete with the Group. If such an event were to occur, it could have a negative effect on the Group's operations, earnings and financial position.

Put option

Low level risk

According to the New Terms and Conditions, the New Bonds are subject to prepayment at the option of each bondholder (put options) if (i) one or more Persons, other than Dr. Saeid AB or the Main Shareholder, acting in concert, acquire control over the Issuer and where "control" means: (a) acquiring or controlling, directly or indirectly, more than fifty (50.00) per cent. of the voting rights of the Issuer; or (b) the right to, directly or indirectly, appoint or remove the whole or a majority of the directors of the board of directors of the Issuer, or (ii) the New Bonds are not admitted to trading on Nasdaq Stockholm or another Regulated Market within 60 calendar days from the issue date.

There is a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the New Bonds which could adversely affect the Issuer, e.g. by causing insolvency or an event of default under the New Terms and Conditions, and thus adversely affect all bondholders and not only those that choose to exercise the option.

Risks related to the bondholders' representation

The rights of the bondholders depend on the Agent's actions and financial standing

Low level risk

Each holder of New Bonds has accepted the appointment of the agent (being Nordic Trustee & Agency AB (publ)) (the "**Agent**") to act on its behalf and to perform administrative functions relating to the New Bonds. The Agent has, among other things, the right to represent the bondholders in all court and administrative proceedings in respect of the New Bonds. However, the rights, duties and obligations of the Agent as the representative of the holders of the New Bonds are subject to the provisions of the New Terms and Conditions, and there is no specific legislation or market practice in Sweden (under which laws the New Terms and Conditions are governed) which would govern the Agent's performance of its duties and obligations relating to the New Bonds. A failure by the Agent to perform its duties and obligations properly or at all may have a negative effect on the enforcement of the rights of the bondholders.

The Agent may be replaced by a successor agent in accordance with the New Terms and Conditions. Generally, the successor agent has the same rights and obligations as the retired agent. It may be difficult to find a successor agent with commercially acceptable terms or at all. Further, there is a risk that that the successor agent would breach its obligations under the above documents or that insolvency proceedings would be initiated against it.

The materialisation of any of the above risks will have an adverse effect on the enforcement of the rights of the bondholders and the Issuer's ability to repay the New Bonds in full.

No-action against the Issuer and bondholders' representation

Low level risk

The Agent represents all bondholders in all matters relating to the New Bonds and the bondholders are prevented from taking unilateral actions against the Issuer or any other Group Company. Consequently, individual bondholders do not have the right to take legal actions to declare any default by claiming any payment from or enforcing any security granted by the Issuer or any other member of the Group and may therefore have no effective legal remedies unless and until a requisite majority of the bondholders agree to take such action. However, there is a risk that an individual bondholder may take unilateral action against the Issuer or any other member of the Group Company (in breach of the New Terms and Conditions). This would adversely affect an acceleration of the New Bonds or other actions against the Issuer or any other Group Company.

Furthermore, an agent's right to represent bondholders in formal proceedings in Sweden (such as bankruptcies, company reorganisations or upon enforcement of security) has recently been questioned and there has been a case where a court has held that such right does not exist, meaning that the bondholders, through the agent, were unable to take actions against the issuer. Although the relevant case law on this subject is, as of now, non-precedential, if such judgments should continue to be upheld by the justice system and/or if the regulators should not intervene and include the agent's right to represent bondholders in relevant legislation, it may become more difficult for bondholders to protect their rights under the terms of the New Bonds in formal court proceedings.

Bondholders' meetings and written procedures

Low level risk

The New Terms and Conditions include provisions governing bondholders' meetings and written procedures, which may be convened to address matters affecting bondholders' interests. Under these provisions, decisions made by the required majority in a written procedure or at a duly convened bondholders' meeting are binding on all bondholders, including those who did not participate or who voted against the majority decision. As a result, a bondholder may, for example, be bound by a majority decision to amend the interest rate or extend the final maturity date. Consequently, actions taken by the majority may impact certain bondholders' rights in a way that may be undesirable for them.

The New Terms and Conditions will further permit the bondholders of the New Bonds to elect a Bondholders' Representative through a written procedure or bondholders' meeting, such Bondholders' Representative shall be authorised to approve certain transactions as set out in the New Terms and Conditions. Additionally, the Issuer may contact bondholders of the New Bonds from time to time in order to form an Ad-Hoc Committee which shall be validly formed if the relevant bondholders represent more than 25 per cent. of the Adjusted Nominal Amount. Such Ad-Hoc Committee will be authorised to approve an Equity Listing Event or a Permitted Disposal and to instruct the Agent to release Transaction Security. Whereas such committee and/or representative shall act in the best interest of all bondholders, any instructions given by such committee and/or representative may prove to be detrimental for all bondholders or only beneficial for certain bondholders.

Further, in connection with the Written Procedure as well as during the tenor of the New Bonds, the bondholders of the New Bonds will have the right to nominate one member to the board of directors of the Issuer as a representative of the bondholders. Investors should note that board members have a legal fiduciary duty to the company, which may give rise to conflicts of interest of such bondholder board member.

RISKS RELATING TO THE WRITTEN PROCEDURE

Risks relating to proposed requests in the Written Procedure and compliance with the New Terms and Conditions

Medium level risk

Pursuant to the Written Procedure, bondholders will receive New Bonds issued by the company in a mandatory securities exchange. Following such mandatory securities exchange, the Bonds issued under the terms and conditions of the Bonds will be redeemed in full and bondholders will not be able to make any claims towards the Issuer relating to the Bonds. Further, there can be no assurance that the Group will be able to comply with the New Terms and Conditions going forward and to continue to adhere to its obligations under the New Bonds. Events beyond the Group's control, including changes in the economic and business conditions in which the Group operates, may affect the Group's ability to comply with the New Terms and Conditions, including any financial covenants. Further, the Issuer's ability to repay the New Bonds will depend on, among other things, the Group's future financial and operating performance as well as its ability to divest Portfolio Companies under favourable circumstances, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond the Group's control. If the Group's operating income is not sufficient to repay its current or future indebtedness, the Group may also be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets or restructuring or refinancing its debt which in turn could have a material adverse effect on the Issuer's long term ability to repay the New Bonds in full.
